**Dated: February 1, 2024**

**BEFORE THE PUBLIC UTILITIES COMMISSION OF THE  
STATE OF CALIFORNIA**

Order Instituting Rulemaking to Evaluate the  
Mobilehome Park Pilot Program and to Adopt  
Programmatic Modifications.

R.18-04-018

**SOUTHERN CALIFORNIA EDISON COMPANY’S (U 338-E) ANNUAL MOBILE  
HOME PARK UTILITY CONVERSION PROGRAM REPORT  
(FOR THE PERIOD JANUARY 1 TO DECEMBER 31, 2023)  
IN COMPLIANCE WITH D.20-04-004**

Southern California Edison Company (SCE) hereby submits its annual report on the Mobile Home Park (MHP) Utility Conversion Program, which the California Public Utilities Commission (CPUC) established in Decision (D.) 20-04-004 (the Decision) to help convert mobilehome parks and manufactured housing communities from master-meter/submeter and master-meter/non-submeter service to direct utility service. The Decision established program eligibility requirements, a prioritization list, and reporting requirements.

Ordering Paragraph (OP) 10 of the Decision states that each electric and/or gas corporation shall annually prepare a report for the Mobilehome Park Utility Conversion Program, as follows:

by February 1 of each year beginning in 2021, and continuing thereafter until the end of the program in 2030 utilizing the Revised Annual Report Template contained in the updated January 2020 Staff Evaluation and as modified by this decision. At the direction of the Commission’s Safety and Enforcement Division (SED), each utility shall file electronic copies of its Annual Report to the service list of this, or successor, proceeding. Utilities shall post copies of their Annual Report on their respective websites and the Commission’s SED shall do the same.

In accordance with OP 12 of the Decision, SCE’s annual report was verified by an officer of SCE, and the parks completed and in progress list is filed in both confidential and redacted form. Additionally, SCE is providing a list of all the MHP conversions completed in 2023 and in progress within its territory, and is submitting a narrative program assessment along with the data requested in the MHP Annual Report Template.

SCE’s annual MHP report for the period of January 1, 2023 to December 31, 2023, attached hereto, provides a narrative program assessment (Appendix A); data in the MHP Annual Report Template (Attachment 1); an updated list of all MHP conversions completed and those in progress, including their city and county, space count, gas utility and electric utility—*which has been redacted in this public version for confidentiality purposes* (Attachment 2); and a declaration supporting confidential designation by Paul Grigaux, Vice President of SCE Distribution (Attachment 3).

Respectfully submitted,

ANNA VALDBERG  
JOSHUA D. BURK

## **1. Executive Summary**

On April 16, 2020, the California Public Utilities Commission (CPUC) approved and authorized SCE to execute the Mobilehome Park Utility Conversion Program (MHP Conversion Program) through D.20-04-004 (the Decision). This ten-year program (2020-2030) is designed to help convert mobilehome parks and manufactured housing communities (collectively, MHPs) from master-meter/submeter natural gas and/or electric service to direct service—as many MHPs within California rely on a single master meter for their entire property. The MHP Conversion Program provides separate meters for each unit or space to measure individual usage.

This report represents Southern California Edison Company’s (SCE) annual progress and programmatic success for the MHP Conversion Program for the year 2023. As of December 31, 2023, SCE has converted 19,405 MHPs (72,120 permitted spaces)<sup>1</sup>, which is approximately 27% of eligible and applicable MHP spaces in SCE’s service territory.

## **2. Procedural History**

On March 13, 2014, the CPUC approved and authorized the Mobilehome Park Utility Upgrade Program (Pilot Program) through D.14-03-021. The Pilot Program was a three-year pilot (2015-2017) to convert master-metered/sub-metered electric and gas services to direct utility services for qualified MHPs.

Resolution E-4878, issued on September 28, 2017, directed the utilities to continue to “complete all Category 1 MHP conversions as established in D.14-03-021 (approximately 10 percent of the MHP spaces) and work on Category 2 and 3 MHPs until the earlier date of December 31, 2019, or the issuance of a Commission Decision for the continuation, expansion or modification of the program.”<sup>2</sup>

Resolution E-4958, issued on March 14, 2019, directed the utilities to continue the Pilot Program until the earlier date of either (1) December 31, 2021, or (2) the issuance of a CPUC Decision in R.18-04-014 that continued, expanded or modified the program beyond December 31, 2020.<sup>3</sup> On April 16, 2020, the CPUC issued D.20-04-004, which established the 10-year MHP Conversion Program, effectively continuing the program until December 31, 2030. This Decision also recommended a second evaluation of the MHP Conversion Program in 2025 following the first four-year application cycle (2021-2024) to decide whether to continue or modify the program.

On August 20, 2021, the CPUC issued D.21-08-025, which adopted consumer protection requirements to keep residents of MHPs that participate in the MHP Conversion Program from experiencing unreasonable rent increases or evictions based on infrastructure improvements funded through the program. On December 19, 2022, the CPUC adopted

<sup>1</sup> Based on space totals from the MHP UCP\_Priority202106\_SCEdison.xls (SED Priority List).

<sup>2</sup> Resolution E-4878, OP 7.

<sup>3</sup> Resolution E-4958, OP 1.

D.22-12-041, which extended the statutory deadline for the proceeding to October 31, 2023, to allow time for the development and consideration of an appropriate electric service standard for the program.

In July 2023, CPUC staff prepared a staff proposal that recommended both a 200-amp electrical standard for the MHP Conversion Program as well as the adoption of a limited initiative to test full electrification of MHPs. Parties filed comments on the staff proposal in August and September of 2023. As the CPUC has yet to release a proposed decision on the issues related to the staff proposal, on November 2, 2023, the CPUC issued D.23-11-013, extending the statutory deadline for this proceeding to December 31, 2024, to allow time to resolve the outstanding MHP Conversion Program issues.

### **3. Program Implementation**

For the MHP Conversion Program, the Decision established a cumulative target of converting 50 percent of eligible MHP spaces by 2030 with a priority to maximize conversion of higher risk master-meter/submeter systems that supply natural gas to mobilehome parks or manufactured housing communities and where possible, dual conversions (natural gas and electric) are preferred. The Decision also expanded eligibility to include sub-metered and non-sub-metered mobilehomes.

On July 1, 2021, the Commission's Safety and Enforcement Division (SED) published the four-year MHP application prioritization list. The list was developed by SED from applications received from MHPs interested in participating in the program. All eligible MHPs were prioritized into Category 1, 2, and 3, based on the safety, reliability, and capacity conditions of the park. Category 1 MHPs have the highest priority for utility conversions. MHPs that have been assigned to Categories 2 and 3 move up the lists if MHPs in Category 1 drop off the lists.<sup>4</sup> As required, SCE completes conversions of all Category 1 parks first before moving onto Category 2. Under certain extenuating circumstances, SED is allowed to adjust the prioritization list on an annual basis not to exceed three percent of the total spaces within a utility's Category 1 population.<sup>5</sup>

Since inception of the Pilot Program in 2014, 80 parks have opted out and SCE has worked with the Commission to identify additional MHPs to participate in the Pilot and MHP Conversion Program.<sup>6</sup> To reach the MHP Conversion Program's goal, SCE has developed a robust process to perform the MHP conversions and, where possible, dual conversions (natural gas and electric) have been planned through joint efforts with impacted gas service providers. Additionally, joint trenching opportunities were leveraged with the MHP's existing telecommunications provider(s).

---

<sup>4</sup> D.20-04-004, p. 36, FN 84.

<sup>5</sup> D.20-04-004, p. 3.

<sup>6</sup> SCE and Southern California Gas Company periodically re-engage opt out parks and because of these efforts there are fewer parks noted this year versus prior annual reports.

#### **4. Cost Assessment**

Attachment 1 (“2023 MHP Annual Report Data”) reflects the space counts and costs of projects through December 31, 2023. The data table was developed with SED and the classification of costs within each category is defined within the table. These costs should be considered final, with the caveat that there may be additional trailing costs that may not be captured at the time the report is prepared.

From inception of the Pilot Program through December 31, 2023, SCE has converted 288 MHPs with a combined total of 19,405 spaces. The total conversion cost, not including Operating & Maintenance and meter costs, for these MHPs is \$283,422,154 resulting in a current average per-space cost of \$14,606.

SCE considers an MHP to be “Converted” after System Cutover has occurred, master meter removed, and all financial obligations have been fulfilled and recorded. System cutover is defined as all residential spaces that have switched from the park owned legacy electrical system to a direct service SCE electrical system and legacy meter removed or transferred to common area only usage. Construction costs—to-the-meter (TTM) and behind-the-meter (BTM)—incurred per space are detailed in the attached MHP Annual Report Data. Costs may vary depending on multiple factors, including availability of contractors, geographic location, etc.

TTM Costs include the portion paid by SCE for TTM activities, which are shared with other participating utilities where service territories overlap. These costs include trenching and paving, company labor in support of the program, including TTM work for selected MHPs, meter installation, and master meter removal.

BTM Contractor Costs are reimbursed to the MHP owner/operator or paid to the BTM Contractor to perform the BTM construction work.

Due to data entry corrections and space count true up in reporting, SCE has restated totals in the following categories of Attachment 1 below. Restated totals have been highlighted in green for easy reference.

- Line 11: Urban Community for program years 2018 – 2022
- Line 15: Number of TTM MH and Covered Common Area Locations Converted (Electric) for program years 2018, 2019 and 2021
- Line 17: Number of BTM MH Converted Register Spaces (Electric)

#### **5. Program Assessment and Challenges**

Per the Decision, SCE continues to execute the MHP Conversion Program in accordance with the CPUC’s annual 3.33% conversion target with the goal of converting 50% of the master metered mobilehome parks by the end of the 10-year program. To reach the program’s goal, SCE has developed robust processes to perform the MHP conversions and where possible, dual conversions (natural gas and electric) have been planned through joint efforts with impacted gas service providers, which continues to assist in movement toward the annual target.

During 2023, the SCE's program experienced both successes and challenges. SCE made improvements in MHP easement execution and enhanced project management and design resources, which resulted in SCE completing more conversions than originally forecasted. However, SCE did not meet its annual space count soft target for 2023 due to supply chain shortage of meter pedestals, which delayed BTM contractors' ability to complete projects. These delays increased the total project completion time and, in some cases, delayed park cutovers.

The soft target goals allow the utility to have annual ebb and flow in completion rates while ultimately meeting its 10-year target. For 2024 and beyond, SCE anticipates that the enhancements made thus far will aid in reaching the 10-year target.

### *5.1 Safety Performance*

In 2023, SCE has maintained a high safety standard with zero (0) reportable TTM contractor incident(s) and zero SCE employee incident(s).

### *5.2 SCE Customer Programs and Services*

Upon conversion of the MHP, residents have immediate access to SCE income-qualified and/or discount customer programs and services, such as California Alternate Rates for Energy (CARE), Family Electric Rate Assistance (FERA), and Medical Baseline Allowance (MBL). Residents can also take advantage of time-of-use rates and/or energy efficiency rebates, which can help them save energy and money on their electric bills. Additionally, customers can contact SCE's customer service representatives with billing inquiries or to ask questions regarding other aspects of their utility service. MHP residents can also access SCE's online tools and services to monitor their energy usage directly and discover additional ways to save energy and money.

From January 1, 2023, to December 31, 2023, 784 MHP residents of parks selected for utility upgrade were enrolled in SCE's CARE and FERA programs and 61 were enrolled in SCE's MBL program.

## **6. Conclusion**

This concludes SCE's 2023 annual filing in accordance with the Decision and SED's instructions. Additional information about SCE's MHP Conversion Program can be found online on SCE's website at <https://www.sce.com/business/tools/for-landlords>.

Pursuant to the Decision,<sup>7</sup> this annual report will be posted on SCE's website, and can be accessed at the following address: <https://www.sce.com/regulatory/CPUC-Open-Proceedings>. Historical annual reports can be found online on the Commissions website at <https://www.cpuc.ca.gov/regulatory-services/safety/mhp/mobilehome-park-utility-upgrade-program>.

---

<sup>7</sup> D.20-04-004, OP 10 requires the utilities to post copies of their Annual Report on their respective websites.

**VERIFICATION**

I am an officer of the electric utility submitting this report and am authorized to make this verification on its behalf. I am informed and believe that the matters stated in the foregoing document are true.

I declare under penalty of perjury that the foregoing is true and correct.

Executed on 1/29/2024, at Pomona, California.

\*\* The Census Bureau identifies two types of urban areas:  
• Urbanized Areas (UAs) of 50,000 or more people;  
• Urban Clusters (UCs) of at least 2,500 and less than 50,000 people.  
“Rural” encompasses all population, housing, and territory not included within an urban area. The Census Bureau website:  
<https://www.census.gov/geo/reference/urban-rural.html>.

\*\*\* Rate impacts from 2024 and beyond based on SCE’s January 1, 2024 authorized bundled system average rate, held constant through 2030 to highlight the incremental impact of MHP on currently known rates.

\*\*\*\* Review for reasonableness of “to the meter” costs and “beyond the meter costs” recorded in the Mobilehome Park Master Meter Balancing Account (MMBMA) will occur in the first General Rate Case (GRC) proceeding where conversion costs are included into GRC rate base for the Mobilehome Parks (MHPs) that have had service cut over completed. The revenue requirement calculation is based on year-end recorded balances and will differ from the revenue requirement recovered in rates (i.e. AL 3539-E, 3715-E) due to timing and modeling differences.

\*\*\*\*\* Space counts trued up as a result of improvements to recording of data and validation measures.

**Attachment 3**

**Declaration Supporting Confidential Designation on Behalf of Southern California Edison  
Company**

**DECLARATION SUPPORTING  
CONFIDENTIAL DESIGNATION  
ON BEHALF OF  
SOUTHERN CALIFORNIA EDISON COMPANY**

1. I, Paul Grigaux, am a Vice President of Distribution of Southern California Edison Company (SCE), a California corporation, as such I had responsibility for managing the preparation of SCE this report.

My business office is located at:

Southern California Edison

2 Innovation Way

Pomona, California 91768

Email: Paul.Grigaux@sce.com

2. I am making this declaration in accordance with the instructions set forth in California Public Utilities Commission (CPUC or Commission) Decision (D.) 16-08-024, D. 17-09-023, D.20-08-031, and D. 23-02-002 and General Order (G.O.) 66-D Revision 2, which governs the submission of confidential documents to the Commission.
3. I have personal knowledge of the facts and representations herein and, if called upon to testify, could and would do so, except for those facts expressly stated to be based upon information and belief, and as to those matters, I believe them to be true.
4. This declaration applies to the Mobilehome Park Utility Conversion Program established by the Commission in Rulemaking (R.) 18-04-018.
5. Title and description of document(s):

R1804018-CONFIDENTIAL-Parks in Progress or Complete-2023.xls

6. This document contains confidential information that, based on my information and belief, has not been publicly disclosed. This document has been marked as confidential, and the basis for confidential treatment and where the confidential information is located in the document is identified on the following chart. Pursuant to D.23-02-002, unless identified in the "Other Basis" category, the information identified below should be treated as presumptively confidential. SCE may request confidential treatment of information outside

of these presumptively confidential categories by explaining the basis (law or Commission practice) for such treatment in the final category below.

Check	Basis for Confidential Treatment	Where Confidential Information is located on the documents [page number, section, or field or portion that is confidential]
<input type="checkbox"/>	<p>Customer-specific data such as</p> <ul style="list-style-type: none"> <li>• Customer energy usage</li> <li>• Demand</li> <li>• Demand reduction</li> <li>• Loads</li> <li>• Amounts of savings</li> <li>• Billing data</li> <li>• Customer financial information</li> <li>• Customer credit ratings.</li> </ul> <p>Protected under Pub. Util. Code (PUC) § 8380; Civ. Code §§ 1798 <i>et seq.</i>; Gov't Code § 7927.700; D.14-05-016; D.04-08-055; D.06-12-029.</p>
